Bengaluru, India | vpraveenkumar1202@gmail.com | linkedin.com/in/vpraveenkumar1202 | github.com/R153nF3n1x | tryhackme.com/p/RisenFenix

PROFESSIONAL SUMMARY

5 years at LSEG transitioning into SOC Analyst, Security Analyst, Information Security Analyst, and GRC roles. Sole owner of Splunk monitoring for 20 metals datasets exceeding one million curves, led DORA compliance verification across 400+ data sources, and drove SQL-based incident investigations using pivot analysis to identify data gaps. ISC2 CC, Google Cybersecurity, and TryHackMe SAL1 certified. Open to relocation.

WORK EXPERIENCE

Business Analyst

LSEG (London Stock Exchange Group), Bengaluru, India | April 2025 - June 2026

- Sole point of contact for Splunk dashboard and alert system monitoring 20 metals datasets exceeding one million curves, tracking error logs and zero-row anomalies so the team investigates data gaps before clients raise tickets
- Wrote SQL scripts to automate day-to-day data verification tasks, improving consistency of checks across the team
- Onboarded as a Data Steward for a Data Trust initiative, checking data quality and integrity across multiple commodity datasets under formal data governance principles
- Built a Python-based team dashboard to track operational metrics, giving leadership visibility into workload and delivery status

Senior Content Analyst

LSEG (London Stock Exchange Group), Bengaluru, India | December 2022 - April 2025

- Led DORA (Digital Operational Resilience Act) compliance verification across 400+ data sources, checking cookie usage and documenting results across thousands of individual links
- Investigated a data flow stoppage caused by an internal incident, building a SQL script to retrieve datapoint counts per source and using pivot comparisons against historical data to identify exactly where gaps existed
- Built a Power BI dashboard to track daily and weekly team case activity, giving leadership real-time visibility into team performance
- Established KPIs for Root Cause Analysis completion across the team, formalising incident follow-up processes to prevent recurrence

Content Analyst

LSEG (London Stock Exchange Group), Bengaluru, India | April 2021 - November 2022

- Maintained commodities data (power and gas) across internal systems, ensuring accuracy and timely availability for global clients
- Acted as single point of contact for internal teams and external stakeholders on data quality issues, including direct client communication
- Reduced incoming data-related issues through systematic data correction and cleanup across multiple systems

Operations Executive

Flipkart, Bengaluru, India | October 2018 - March 2021

- Supply chain and vendor management, single point of contact for internal stakeholders and vendors across procurement operations
- Handled vendor onboarding, account reconciliation, brand payments, and supplier record maintenance
- Created purchase orders based on sales trends and inventory levels, generated regular reports on stock movement

Client Tech Support Associate

Dell International Services, Bengaluru, India | September 2016 - July 2017

- Diagnosed and resolved hardware, software, and Windows OS issues for enterprise clients
- Led the team in providing technical resolutions in the absence of the Team Lead

SKILLS

Security and Compliance: SIEM/Splunk, DORA Compliance, GRC, Incident Response, Log Analysis, Threat Detection, SOC Analysis, NIST Cybersecurity Framework, Risk Assessment, Risk Management, Network Security, Intrusion Detection

Programming and Scripting: Python, SQL/MySQL, HTML

Tools and Platforms: Splunk, Power BI, Oracle SQL Developer, JIRA, Salesforce, Microsoft Office

Methodologies: Agile, Scrum, Root Cause Analysis, Change Management

CERTIFICATIONS

ISC2 Certified in Cybersecurity (CC) - 2026

Google Cybersecurity Certificate - 2024

TryHackMe Security Analyst Level 1 (SAL1) - 2026

Intro to Splunk - 2024

EDUCATION

Bachelor of Engineering, Information Science and Engineering
Sri Venkateshwara College of Engineering, Bengaluru | Graduated July 2015

ADDITIONAL INFORMATION

GitHub: github.com/R153nF3n1x - 57 investigation writeups covering DFIR, network forensics, detection engineering, phishing analysis, OSINT, and AI security

TryHackMe: tryhackme.com/p/RisenFenix - SAL1 certified, 57 documented investigations across SOC Level 1 and specialist paths

Availability: Available immediately - Open to relocation across Europe, Singapore, and Malaysia

Visa Status: Indian national, open to employer-sponsored visa and work permit arrangements
